ABOUT ME

Hello, my name is Jano and I am a self-taught Front-End developer. During the 2020 pandemic, I delved into programming and developed a genuine interest in learning about web development. I have experience with React, Next.js, TypeScript, Vanilla JavaScript, Node.js, Vue.js, Tailwind, Chakra, and Git. Currently, I am continuously improving my skills in these technologies to further expand my capabilities in web development. I consider myself organized and responsible, with good interpersonal skills. If you are looking for a dedicated employee, feel free to contact me.
